for disability access information.

Whatever our perspective—trainees and students, researchers, health care professionals, service providers, educators, individuals with disabilities or family members, or simply concerned citizens—we see ways that the disability service system can be improved. One dimension of changing service systems is educating legislators and other public policy makers.

This virtual workshop will feature:

- Stories and strategies from disability advocates;
- Hot topics in state and federal disability policy; and
- Information on the upcoming 2022 Disability Day on the Hill and Disability Policy Seminar.
