

# Do you have a Teen Who Likes Games and Technology?

*Participate in a study for teens with autism with the AIVAS Lab!*

## Here is your chance to time travel and be a part of science!

Help us learn about how we learn social skills through educational technology.  
Teens will try out a 40 minute educational game four times.

### What is involved?

Teens will complete a two-hour session in the lab, and then complete online surveys and four 40 minute sessions of gaming at home over two weeks.

Parents will complete a two-hour session in the lab, and complete a brief survey at home.

### Who can take part?

<https://journals.plos.org/plosbiology/article?id=10.1371/journal.pbio.3001418> teens aged 11-14 with autism.

Parents receive a \$50 gift card as compensation for the in-person session.  
Children receive \$55 in gift cards if they complete all parts of the study.
