**(615) 322-2943**

This study is funded by the National Institute of Mental Health.  
Award # 1R01MH121438-01A1. Revision Date: March 8, 2021

## Are you or someone close to you a young adult on the Autism Spectrum?

We aim to investigate how life unfolds across young adulthood for those on the autism spectrum. We hope that the findings from this study will inform future interventions to improve employment and community participation.

### What will you do?

- Autistic adults will complete a questionnaire and interview about their experiences every 12 months for 3 years.
- Autistic adults will complete a brief “check-in” interview mid-way between each yearly questionnaire/interview.
- A parent, family member, or other close person will also complete questionnaires and interviews (not required).
- Autistic adults may participate in a one-time lab visit.

Autistic adults will receive up to \$300, and others up to \$275.
