

Down Syndrome Speech Enrichment Intervention

 VANDERBILT KENNEDY CENTER

Date of IRB Approval: 01/06/2022

We are conducting an intervention study that will look at improving speech intelligibility in children with Down Syndrome.

Who is eligible?

Children with Down Syndrome ages 4-16 years

Description of Study

Children will participate in play-based intervention sessions 2x/ week with a therapist. Sessions will target improving speech intelligibility.

Participants will be asked to:

- Complete questionnaires about their child.
- Participate in weekly play-based sessions
- Attend study visits before and after the intervention program
