

BEYOND INTEGERS

How do our brains process numbers?

Who is Eligible?

- Young adults ages 18-35
- English speaking individuals
- Normal or corrected to normal vision
- Free of pre-existing neurological conditions

What is Involved?

- 1-hour visit for questionnaires and basic math & reading tasks
- Six 1.5-hour MRI visits

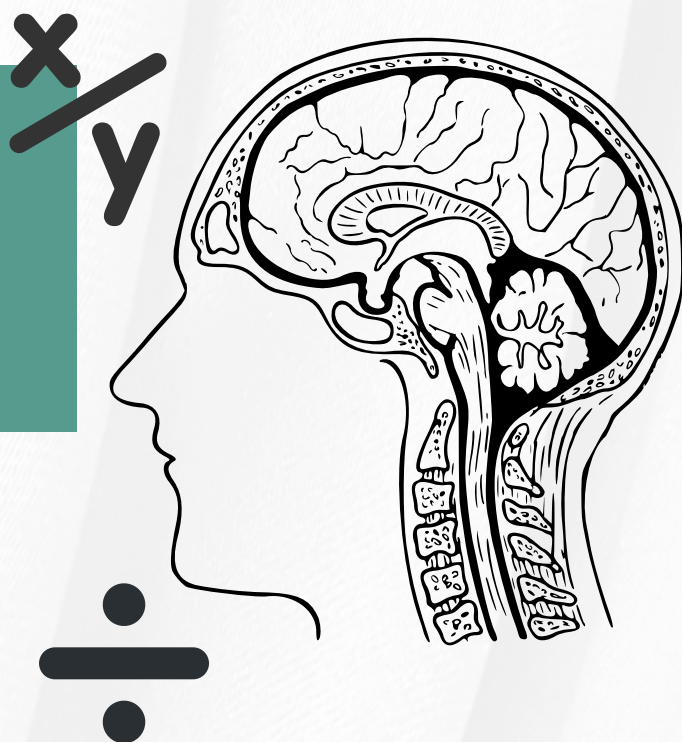

What will we ask you to do?

- Compare numbers or shapes in an MRI machine

Compensation

You will receive a \$10 gift card/hour and an extra \$20 gift card at the conclusion of each MRI scan. If all sessions are completed, you will receive an extra \$60 gift card plus a 3-D model of your brain!

Date of IRB Approval: 03/06/2025

**Understanding better
how we use numbers
flexibly to learn math**
