

# Toddler's Understanding Through Scale Models

We are looking for participants for a research study looking at how 29- to 33-month-old children understand and use information from scale models.

Who: 29- to 33-month-old children.

What: A 45 minute visit to Vanderbilt where your child will search for hidden toys using clues provided through a scale model.

Receive a \$10 gift card for your time!
