

**Help us understand
the relationship
between early
language and
number skills!**

Date of IRB Approval: 12/26/2018

Volunteer for Research at Vanderbilt University Brain Development Lab

Who:

3- and 4-year-old typically developing, English speaking children.

What:

- Developmental history questionnaire to assess eligibility
- One visit, 1–1.5 hours long
- Play computer games
- Standardized tests

Why:

To learn more about your child's early language and number skills.

Compensation

Those who are deemed eligible based on the developmental history questionnaire will receive \$10/half hour, as well as a toy.
