

**Help us discover
how children
who are deaf and
hard of hearing
learn to read!**

BRAIN
DEVELOPMENT LAB

Volunteer for Research at Vanderbilt University Brain Development Lab

Who:

- 10-16 year olds who are deaf and/or hard of hearing who use sign language, oral language or both
- No cochlear implants due to MRI

What:

- Multiple Sessions
- Play interactive learning games
- Standardized testing
- Experience a mock MRI & a real MRI (*Magnetic Resonance Imaging is safe and non-invasive*)

Why:

- Participants will be paid (*including travel expenses for those who must drive far or fly to Nashville*)
- Receive your child's standardized test scores
- Help unravel the mystery behind how deaf and hard of hearing children learn to read
