

VANDERBILT KENNEDY CENTER

INTERESTED IN RESEARCH?

The **Down Syndrome Research Registry** serves to connect you to researchers who want to better understand Down syndrome and other conditions. This registry collects information on individuals with Down syndrome that are interested in participating in research studies. Individuals in this registry would be notified about opportunities they may be eligible for.

This registry has the potential to help researchers understand and create better care for individuals with Down syndrome. We hope you will consider joining!

Who? Individuals with Down syndrome

What? One short questionnaire completed online
