

Trying to conceive?

Seeking participants for a research study

If you are pregnant or trying to conceive and are interested in participating in research, please scan the QR code below to complete an interest form.

Participation involves four study visits during pregnancy and one follow-up after the birth of your child. For each visit, participants will complete an MRI scan, an EEG, cognitive tests, questionnaires, and biospecimen collection (hair, blood, saliva).

Study visits will be approximately one month apart and will take about five hours each. Participants can earn up to \$920 for the completion of the entire study.
