

# Communication and Play Intervention

for Young Children with Autism

**We are looking for young children with ASD (12-36 months old) to participate in a play-based intervention study!**

- We will work with your child on building communication, social and imitation skills
- Your child will receive ~3 months of intervention sessions; sessions occur 2-3x per week
- Children receive assessments for autism and developmental skills
- Participants receive up to \$150 in gift cards; assessment and intervention sessions are provided at no cost.
