

**School-age children are needed for a new speech study**

## Is your child's speech hard to understand?

Your child may qualify if he or she meets these criteria:

- 9 to 17 years of age
- Speaks English as primary language
- Normal hearing

In this study, your child may:

- Attend virtual study visit(s)
- Complete reading, writing, and spelling tasks over the computer
- Participate in 2-3 hours of testing

Benefits to You

- Receive a comprehensive speech, language, and reading evaluation that can be shared with your child's school

Compensation:

Child will be paid up to \$50
