

Young Children's Speech Development

VANDERBILT  UNIVERSITY

Volunteer for Research at Vanderbilt University Child Language and Literacy Lab

Help us explore children's speech development

Who: Children who are 3 to 6 years of age who may or may not have speech articulation difficulties

What children will do:

- a. Listen to words and sentences and point to pictures on an iPad
- b. Label pictures
- c. Repeat sentences while looking at story pictures
- d. Talk about favorite activities for 5 minutes

Research activities will take no more than one hour.

Participants will receive up to \$10 as compensation for their time.

Melanie Schuele, PhD, CCC-SLP, is coordinating this study. She and her graduate students will complete study activities with children.
