

## Choice Boards - An Overview

Evidence-Based Practice Link	Choice boards are a form of <b>visual support</b> , which is an evidence-based practice for autistic students. Visual supports are defined as a “visual display that supports the learner in engaging in a desired behavior or skills independent of additional prompts.” (Steinbrenner et al, 29)
When to Use Choice Boards	<p>Ideal instances to use choice boards with autistic students, or other students with or without disabilities, could include (but are not limited to) choosing:</p> <ul style="list-style-type: none"> <li>• reinforcers for after work time,</li> <li>• what story is read during circle time,</li> <li>• which independent work to do first,</li> <li>• which center to go to next, or</li> <li>• which peers to have join a lunch bunch.</li> </ul>
Why Use Choice Boards	<ul style="list-style-type: none"> <li>• Provides clarity on what choices are currently available</li> <li>• Promotes independence</li> <li>• Fosters student autonomy, allowing them a voice in portions of the school day</li> </ul>
Critical Components of Choice Boards	<ol style="list-style-type: none"> <li>1. Have an appropriate visual representation at the child’s current skill level to denote choices student can make.</li> <li>2. Start by including choice board items that are highly preferred.</li> <li>3. Remove “unavailable” choices when they can’t be chosen logistically (e.g., if it is raining, don’t include the “slide” choice for the student to choose from).</li> <li>4. Prompt the student to use the choice board when presented with an opportunity for choice.</li> <li>5. Provide reinforcement to the student for making the choice by giving him or her the item/activity chosen immediately.</li> </ol>

<p>Choice Board in Action</p>	
<p>Assembly Tips</p>	<ol style="list-style-type: none"> <li>1. Print and laminate the choice board and choice option page.</li> <li>2. Cut out the laminated choice pictures.</li> <li>3. Place hard-sided Velcro on the individual choice squares on choice board.</li> <li>4. Place soft-sided Velcro on the back of the choice pictures.</li> <li>5. Consider adding a Velcro strip or taping an envelope or Ziploc bag to the back of the choice board to hold unavailable choices.</li> <li>6. Place pictures on the choice board of available choices for the student before presenting the choice board to the student.</li> </ol>
